

SA706M

(Clearing width 680mm 6.0ps)

SA708M

(Clearing width 680mm 8.4ps)

SA Gasoline

With small body blow snow completely! Fujii's long seller model

Simple and handy snowblower for home use

The clearing width is 680 mm.

Two types of engines (6.0 ps and 8.4 ps) are available.

5 speed (forward) and 1 speed (backward) transmission

The auger height can be adjusted with a foot pedal.

Snow throwing direction and distance can be set by moving the steering wheel and levers.

The engine is started by cell motor (SA708M) and recoil starter (SA706M).

SA708M has headlamps equipped as standard equipment.
