(Clearing width 710mm 8.4ps)

Sk810M
(Clearing width 800mm 10.0ps)

Sk Gasoline

Wet side clutch enables smooth swiveling at the operator's command

Industry's first small snowblower equipped with wet side clutches

Newly installed wet side clutches enable smooth swiveling according to the pull of the lever.

Operation panel with new design

Improved aesthetic design with embedded headlamps and a cover extending to the steering wheel.

Easy operation (as easy as conventional machines)

The shooter can be easily adjusted by moving an electric lever.

Operation speed can be controlled steplessly with the HST lever. Smooth switching between forward and backward movement.

The auger part can be moved up and down effortlessly with a power-assist lever.

Specifications

Model	Sk708M	Sk810M
Clearing width (mm)	710	800
Clearing height (mm)	510 (570)	510 (570)
Max clearing capacity (t/h)	50	60
Max throwing distance (m)	15	15
L x W x H (mm)	1470×710×1160	1470×800×1160
Weight (kg)	169	173
Engine model	GM291	GM301
Engine type	Air cooled Gasoline engine	Air cooled Gasoline engine
Max output kw(ps)	6.2 (8.4)	7.4 (10.0)
Fuel tank capacity (L)	6	6
Start up system	Cell motor	Cell motor
Lift	Lift lever (free lock)	Lift lever (free lock)
Chuter adjustment	Electric	Electric
